BRYAN ANALYZES DEMOCRATIC PLATFORM.

Declares Imperialism Is the Paramount Issue, and Says Tariff Plank Is Good, But It Had a Close Shave.

LABOR PLANK IS SATISFACTORY

Some Doubt About Candidate Parker's Attitude Toward Anti-Trust and Tariff Deliverances—Nebraska Statesman Thinks Document Good.

Lincoln, Neb., July 15.—W. J. Bryan has made public the following statement relating to the Democratic platform adopted at St. Louis:

The plank on imperialism is positive, strong and satisfactory to the entire party, and this question becomes the paramount issue of the campaign.

The tariff plank is good, but it was made so on a close vote in the committee, and largely against the opposition of Mr. Parker's adherents. The plank which was voted down favored a wise, conservative and business-like revision, made "with due regard to existing conditions." The committee thought that these qualifying words emasculated the plank and left it so weak as to give no hope to tariff reformers.

The anti-trust plank is a good one. It demands the enforcement of the criminal clause of the criminal law against the trusts; it demands the abolition of rebates and discriminations, and it demands the withdrawal of the interstate commerce privileges from trusts when once convicted.

The plank is indefinitely superior to the Republican plank and with a president who desired to destroy the trusts would be a sufficient plank, but as this trust plank was also substituted by the full committee there is reason to fear that it may not be in keeping with the ideas of the candidate.

The labor plank is all that could be desired. It declares against government by injunction; it favors arbitration and the eight-hour day, and denounces the methods that have been resorted to in the Colorado strike, but as these planks were added in the full committee some uncertainty exists as to the candidate's position.

The platform declares in favor of the reduction of the army. Upon this the committee was unanimous. The sub-committee reported a plank in favor of an increase of the navy, but this was stricken out in the full committee.

The platform has a plank in favor of the enlargement of the scope of the interstate commerce commission and in favor of irrigation. The general clauses of the platform excite no dispute, and the appeal against the introduction of a race issue ought to have weight with the sober, thinking Americans.

On the whole, the platform is good. From a western standpoint its greatest defect is that it makes no mention of the money question. An attempt was made to secure a plank opposing the holding of the silver dollar, opposing the asset currency and branch banks, and expressing a preference for the United States note, ordinarily known as the greenback, over the bank note, but having refused to put in a gold plank, the committee was not willing to have any phase of the money question alluded to. While the motion to reaffirm the Kansas City platform was voted down, there was a considerable vote in favor of its reaffirmation and the western members of the committee, together with a few from the south, stood together and secured enough changes in the platform to make it a presentable document worthy of the support of the party.

MAYOR JONES HONORED.

Remains of Golden Rule Exponent Viewed by Thousands of Mourners.

Toledo, O., July 15.—Thirty thousand people viewed the remains of the late Mayor Jones. The body was taken to Memorial hall in the morning and was viewed for 10 hours by a constant string of people moving two abreast. The hall was opened at 5:30 this morning and the remains will be in state until noon, when the remains will be taken to the family residence for the funeral.

RANCHER WRECKS TRAIN.

Had Tried to Keep Tracks from Crossing His Land.

Butte, Mont., July 15.—Albert Redmond, a rancher living near Columbia Falls, is in jail on a charge of having wrecked a Great Northern train because the railway had secured right of way over Redmond's land in spite of the owner's protest.

In order to prevent the operation of trains, it is alleged, Redmond tore up one section of steel ties and scraped away the gravel roadbed. A freight train was wrecked and a trainman injured. It is believed that Redmond's mind has been affected by brooding over the matter.

PRESIDENT CAMPS OUT.

Spends Night With Boys, Sleeping With No Roof Except Sky.

Oyster Bay, L. I., July 15.—After a gallop over the fine roads in the vicinity of Sagamore Hill and a plunge in the bay, President Roosevelt devoted several hours to work on official business in his library.

The president is keeping in close touch with departmental affairs in Washington. Indeed, his daily routine of attention to governmental matters does not differ essentially from that in Washington. A direct telegraph wire from the executive offices here to the White House enables him instantly to communicate at any time of the 24 hours with the members of his cabinet and other officials with whom he transacts business personally.

President Roosevelt, accompanied by his sons, Kermit and Archie, and his nephews, Philip and George, sons of Franklin Roosevelt, and one of two friends of the boys, spent a night on the shore of Long Island with the sky for a canopy.

The party left Sagamore Hill in two rowboats early in the evening, taking with them blankets, cooking utensils and food for their meals. They camped for the night not far from where the explosion of the gas-line launch Aetna occurred and that lent some excitement to their outing. The night was delightful and the experience was enjoyed thoroughly by both the president and his companions. They cooked their own breakfast, the president being an adept at the preparation of an outdoor meal. They reached Sagamore Hill early in the day.

BIG FRAUD ALLEGED.

Ticket Takers at World's Fair Arrested Pending Investigation.

St. Louis, July 15.—William H. Ellis, Charles H. Stiller, Henry Miller and Edward Kiehl, all of St. Louis, employees of the admissions department of the world's fair, have been arrested pending an investigation into what is believed to be a gigantic conspiracy to rob the exposition company by ticket irregularities.

Indications are that a large number of the employees of the division of admissions have been in the conspiracy to defraud the exposition company and that a large sum of money has been secured.

The switching back and second sale of genuine tickets and the wide circulation of counterfeit admission cards are said to be two of the schemes which have been worked with success.

In the carrying out of the conspiracy the men at the gates are supposed to have had the cooperation of others in the ticket booths and of certain employees in the offices of the admissions department in the administration building, as well as inspectors stationed at the entrances.

KINGSLY'S BODY FOUND.

Mystery of Wealthy Young Man's Disappearance Cleared Up.

New York, July 15.—The body of Henry Baxter Kingsley, who disappeared mysteriously Nov. 14, when he was found in the Harlem river at One Hundred and Fifty-seventh street, has been identified beyond question by two men who viewed it at the Harlem morgue. Neither would give his name, one saying he was a relative of Kingsley and the other stating that he was attached to the office of the district attorney.

The men made measurements and found them to correspond with those of Kingsley.

The body later was taken to an undertaking establishment to be prepared for shipment to Rutland, Vt.

ORDER IS REVOKED.

Igorrotes at World's Fair Continue to Wear Native Garb.

Washington, July 15.—There will be no change in the costumes of the Igorrotes at the St. Louis exposition. Statements concerning the proposed change from President Francis, from Senator Carter and from Mrs. Manning, Mrs. Montgomery and others of the board of lady managers were sent to the president, while explanations were made by Colonel Edwards of the insular bureau, and as a result it was decided that no order would be issued requiring these people to wear anything more than their native dress.

Aeronaut Falls Into the Sea.

Montpelier, France, July 15.—Count de Laxaux, the aeronaut, came to grief while attempting a flight in his dirigible balloon over the Mediterranean. Owing to a faulty start the balloon fell into the sea and the motor was swamped.

Still Cling to Absolute Power.

St. Petersburg, July 15.—An official statement regarding the imperial decree abolishing the system of condemning political prisoners by administrative order shows there is a reservation in "exceptional cases."

FOR THE LITTLE COURT ROOM.

Montana Senator Says That Long Delay Has Been Occasioned By An Operation He Had Performed—Bar Association Committee Gratified.

The committee appointed by The Bar Association, of Fayette county, to secure suitable portraits for hanging in the court house, has just received a letter from Senator Clark, of Montana, in reference to securing a portrait of General Washington. The committee was Judge E. H. Reppert, Judge R. E. Umbel, J. C. Work, Ed. and Edward Campbell Esq. They were gratified to receive the letter, which is as follows:

UNITED STATES SENATE
Delated on route St. Louis to
July 11 1904.

Mr. Edward Campbell,
Uniontown, Pennsylvania

Dear Mr. Campbell:

We had some correspondence last year concerning the placing of a portrait of General Washington in the court house at your place, and I beg to say that it was my intention then to thoroughly investigate the matter and ascertain if I could secure a good portrait for that purpose. Unfortunately in December I was taken ill and had an operation performed which came very near ending my career. I was a long time recovering my strength and returned to the United States only two weeks ago, feeling fully restored. I have just attended the National Convention in St. Louis. I have not lost sight of this matter and write you now to ask if you have secured anything to meet your requirements. If not, I will promise this much at least, to look further into the matter and see what can be done. I am now on my way to Jerome, Arizona, and California, and thence will go to Butte, Montana, where a letter will reach me.

Sincerely yours,
W. A. CLARK.

The committee asked Senator Clark to furnish a portrait because he is a native of this county. The Washington portrait is wanted for the little court room. There are four paintings permanently fixed in the main court room. One of General Lafayette, which was presented by Henry C. Frick. Another of Chief Justice Gibson, which was painted from life in 1840, while he lived in Uniontown, by James Wilson, of York. At this time Gibson was judge of the county court. The painting hung in the old court house for a short time and Judge Campbell had it in his office twenty years. The two small paintings are of Judge Kennedy, grandfather of Judge John Kennedy Esq. and General J. B. Howell. These two pictures were painted by C. L. Kilpatrick, a noted portrait painter. The portrait of General Washington, which was born at Connellsville, these two pictures were procured by the members of the bar.

The courtesy of Senator Clark in replying so encouragingly to the committee is an indication of the interest he still has in Fayette county. The committee has been very zealous in its efforts to furnish the court house with paintings of noted men and they now have hopes of securing the Washington portrait.

READY FOR VISITORS.

M. & M. Association Is to Come by Trolley From Uniontown.

BUSINESS MEN TO MEET THEM.

Trip Over P. McK. & C. Line Will Give Them a Good Idea of the Greatness of the Connellsville Region. Will Spend Two Hours Here.

Everything is in readiness here to greet and entertain the delegation from the Merchants and Manufacturers Association of Pittsburgh, which will visit Connellsville this afternoon. James W. Wardrop, who has the excursion in charge, has accepted the invitation extended by telegram yesterday from Henry P. Snyder, asking an excursionists to ride in a special car of the Pittsburgh McKeesport & Connellsville system from Uniontown to Connellsville. The excursion train is expected to arrive in Uniontown at 2:30 this afternoon. About an hour will be spent in the County Capital. While no formal arrangements have been made for the reception of the excursionists, it is understood that there will be a cordial delegation of merchants and manufacturers at the train to greet them and show them about the town.

A number of Connellsville business men, members of the reception committee, will accompany the guests from Uniontown here on the trolley car. The car, which will run through on fast time, will carry the visitors out to the South Side. From there they can see their pleasure about walking back and seeing the residence portion of town or coming back on the car. The principal points of interest in town will be visited.

The party will spend the latter part of the afternoon in Connellsville and will board their special train for Pittsburgh, where they expect to arrive early this evening.

Taken to Dixmont.

Joe Kistinger and M. Rosenberg were taken to the Dixmont insane asylum Thursday by Sheriff Frock. The former was committed to jail some weeks ago by Squire Joseph H. Humbertson of Henry Clay township. The latter is from Cool Spring and has been in jail for several weeks. Both men were examined and it was decided that the asylum was the proper place for them although it is believed that they will entirely recover after a time.

Two Killings in Baltimore.

Baltimore, July 15.—A saloon row Tom Walsh was shot and killed by R. E. Nunneley as the result of a feud. In a quarrel between two youths Robert Fish, aged 17, was shot and instantly killed by Edward Blundell.

Princess Under Surgeon's Knife.

London, July 15.—Princess Victoria of Schleswig-Holstein has been operated upon for appendicitis at Windsor castle. She is not yet out of danger.

TO FIGHT TO FINISH.

Rand Powder Company To Take Case to Supreme Court.

The equity proceedings between Hugh Wilson and others and the Rand Powder Company of Fairchance will be appealed to the supreme court by the defendants in an effort to reverse the decision of the county court which recently decided that the plant of the company must be removed from their present location near Fairchance. The lower court, however, allowed them privilege to continue in business until they had a chance to be heard in the supreme court if they decided to take the case up. The plant is still in operation and gives employment to about 50 hands the year around. They are said to be doing a profitable business and are turning out about 25,000 pounds of black blasting powder daily.

The company, it is understood, will fight the matter to a finish. They claim that the citizens who are now protesting so strenuously against the mills should have protested before the plant was built, and that almost \$100,000 expended in putting up the buildings and installing the necessary machinery. No public protests were made until after the explosions in June and December, 1902. Soon thereafter the plaintiffs, who are citizens in the immediate vicinity of the works, had a bill in equity prepared with a view to putting the powder firm out of business. They continued operations, however, pending a disposition of the case.

The citizens, who are pushing the matter, are just as determined to fight the case to the last as are the defendants. They contend that their property has greatly depreciated in value since the explosions. Moreover they contend that their lives are not safe. A large amount of testimony was taken at the various hearings in Uniontown before the decision of the court together with a lengthy opinion, was handed down by Judge Umbel a few weeks ago.

BRIDGE NEARLY COMPLETED.

Chaintown Bridge Will Be Ready for Use in a Short Time.

County Commissioner M. E. Townsend went over to Greensburg Thursday to arrange a joint meeting with the Westmoreland county board for the purpose of inspecting the new bridge across Jacob's creek at Chaintown in Lower Tyrone township. The new bridge, which takes the place of the one broken down by a traction engine early last fall, is now about completed. George Beatty, the supervisor of Lower Tyrone township, says that he would soon have the approach to the bridge filled up and ready for traffic but that nothing had yet been done on the East Huntingdon side. He says that hundreds of people in that community have been put to a great inconvenience since the bridge has been down and will be glad when it is completed.

FINED FOR MISCHIEF.

Jonathan Hart Severely Scored in Squire Miller's Court.

Jonathan Hart, of Connellsville township, was fined \$5 and costs before Justice of the Peace Frank Miller Thursday afternoon on a charge of malicious mischief brought against him by Jacob Richter, of the same township. Hart was charged with moving a line fence, destroying property and releasing stock from one of Richter's pastures. The trouble, it was ascertained, resulted from an article of agreement under which some property was sold by Richter to Hart some time ago. It seems that this article of agreement was not satisfactory.

Buys Real Estate.

A deed was placed on record at Uniontown Thursday afternoon whereby Joseph Wolf, the Bradock capital, transfers to Cyrus Richard of Connellsville, 30 lots in South Union township. The deal was effected a short time ago and involves a consideration of \$14,510. The lots belong to a large plot south of town, between the Morgantown road and Continental No. 1, and which was laid out in lots several years ago.

Wilkesburg Saturday.

An interesting game of ball is expected Saturday afternoon, when the strong Wilkesburg team will cross bats with the Columbias. The visitors are returning from a series of games played with Cumberland, Loudon, Piedmont and Frostburg. They made a good showing against the southern teams, and the Columbias will try to give them a good run for their money here.

School Board Meeting.

The New Haven School Board met Thursday evening. President McKee appointed the following committees: Supply committee, Charles Hoop, Frank Kincliff and William Springer; building committee, John T. Hetzel, Joseph Metzgar and Frank Kincliff; finance committee, Kell Long, Dr. R. S. McKee and William Whitman.

New York Subway Completed.

New York, July 15.—John B. McDonald, contractor, announces that subway construction work is completed and that the new transit line will be turned over to the Metropolitan street railway company on Aug. 1.

TO BE SUBSTANTIAL BUILDINGS.

Uniontown Station Will Cost \$13,000 and Morgantown Will Have a \$36,000 Edifice—Contract for Their Erection Will Be Let Soon.

Baltimore, July 15.—[Special.]—President Oscar G. Murray has issued formal instructions for the building of new stations at Uniontown and Morgantown. For years these depots have been inadequate for the business done and as both were showing large increases in revenue, decided on the improvements.

The improvements at Morgantown will cost about \$28,000, both a passenger and freight station being contemplated and the facilities at this point will be used by both the B. & O. and the Morgantown & Kingwood railroads.

Uniontown will have a passenger depot amply large enough to care for future increases and in style, will be a credit to the town. It will cost about \$13,000.

The plans for the proposed new depot at Uniontown have already been described in these columns. They were prepared in the office of Division Superintendent J. F. Irwin here. The Uniontown depot will be modern in every particular. The plans are now in the hands of the contractors, and bids are expected at any time.

It is the purpose of the company to let the contract at once. Superintendent Irwin said this morning that it is the hope of the company to have work started on the Uniontown building within the next fifteen days. Work at Morgantown will begin a short time afterwards. The difference in cost between the Uniontown and Morgantown buildings is explained by the fact that the Morgantown depot will be used by both the B. & O. and Morgantown & Kingwood railroads. The Uniontown depot, however, will be richly finished, and will, as stated by the officials, be a credit to the town.

The directors of the Baltimore & Ohio railroad have elected Treasurer Joshua Vassant McNeal fourth vice president of the road. This is a new office, and a deserved promotion for Mr. McNeal.

Mr. McNeal is a son of the late James McNeal of Baltimore, and was born there. He is thoroughly conversant with railroad finances, and he entered the railroad. Vice president McNeal will have absolute charge of the finances of the Baltimore & Ohio railroad.

Rev. G. H. Flinn, Ph. D. will give a stereopticon lecture on Ben Hur in the Methodist Episcopal Church on Friday evening July 22. This will be one of the best things you cannot afford to miss.

Mrs. E. Hancock is on the sick list and has been for several days not yet being able to get around. So T. K. Thresher who was to take his vacation and visit friends and relatives in Ohio on his way to the World's Fair was compelled to abandon his trip for the present.

George C. Kurtz and party who came up to our town last night on his automobile left today for Dawson. Quite a number of people gathered on the street to see it as it passed through from Somerset.

David Smith of Smithson promoter of the old Virginia copper mines still in its infancy of development was circulating among some of the stockholders in Confluence today. Mr. Smith is a very genial and jovial fellow.

P. M. Dodds and H. McClune were seen driving through town today in the fine buckboard which Mr. Dodds uses in going and coming from Drake town. He makes daily trips looking after the men who are excavating the reservoir for lake water works.

There was a large crowd of Confluence people attended the picnic at the grove on the John Reed farm, one mile west of town where they used to have their annual outings years ago.

The camping company broke camp today after a ten day's stop here. It is under the management of Rev. A. N. D. Nash of Uniontown. From here they will go to Somerset.

The sporting reporter of the Myersdale Commercial was canvassing town for the latest happenings around and about here for his paper. He represents Mr. Cronin is a fine reporter having once run a paper himself.

R. R. Reynolds left on train No. 47 today for Pittsburg where he will resume his position as engineer on the Panhandle railroad. He has been on the sick list for the last few months and he says it will be a relief to him to be on the right side of one of the steel giants again.

Mrs. Walton and Miss West spent a very pleasant afternoon with Miss Minnie Shurt of West Confluence on Wednesday.

Uncle Jerry Fisher is on the sick list and has been for several days. His ailment is kidney trouble.

It is B. T. Tissue is still confined to his room and is likely to remain in his room until for a day or two.

Samuel Robinson of Marble Hill is calling in town today. Sam is a frequent visitor here.

Mrs. Albert Dieker and daughter of Fort Hill were doing some shopping in Confluence today.

Dr. W. S. Mountain has received an automobile. He is the first to introduce this make of vehicle in our city. Others will follow soon or at least rumor says so.

Rumor says there is a company forming to locate and open up a sand stone quarry about one mile west of the famous Marble Hill quarry near the mouth of the Drakestown run. There will be 50 or 60 men employed inside of a month to work the quarry.

Mrs. James Glover left today to spend an extended visit at Pittsburg and Braddock among friends and relatives.

James Albright and Marshal Michael left on train No. 48 today for Myersdale to look after some business there.

Sheriff C. C. Coleman of Somerset was in Confluence today.

OHIO-PYLE.

Notes from the Little Mountain Resort Up the Yough.

Ohio-Pyle July 14.—Doc Stillep was inspecting the B. & O. R. R. near here Wednesday. He says it is in fine shape.

Although the B. & O. made measure here last week preparatory to placing electric bells at the railroad crossing, the bells have as yet failed to arrive.

Come to our beautiful little summer resort to spend your vacation. Plenty of fresh air may be had free of charge. Fine fishing in the Yough river come here to do your fishing.

The ice house of W. Williams is rapidly disappearing under the master hand work of George Gales. The Pals again defeated one Leans in a rather one sided game here Tuesday by the score of 2 to 1.

The score per inning was as follows:
Fats 6 1 2 3 1 0 — 2
Leans 1 0 2 0 1 0 1 — 0

The third consecutive victory for the Pals over the Leans this season at the Yough. The Pals have as a result while the Leans have but little to say about the affair only that they expect to put down the Pals (catchers) a little before the season is over. All in favor of this should give their cheer by shouting "Conifers No."

Remember the base ball game on Saturday between the McKee point and the O. P. A. C. Company at all and you will be sure.

Head the only reliable and up to date paper for all the Yough. The Yough County—The Daily Yough. The new serial stories. The Sub-study is certainly a winner so why not read it. Sub-scribe at once.

DUNBAR.

Events of the Day in the Busy Furnace Town.

Dunbar July 15.—The B. & O. paint gang was here yesterday painting the interior of the station. Early last spring they were here and painted the outside of the building but they were called away before the work was completed. The exterior of the building was painted the same color as it was before while the interior of the building is being painted a shade lighter.

The station at this place is now the best between Connellsville and Morantown. V. Va. Uniontown the county capital has nothing in comparison to the building at this place. The citizens there however have made considerable complaint and they have urged upon the company that they be given a new depot and according to rumor they are in a fair way to have a new one that will be a credit to the company and also to the appearance of the County Capital.

H. H. Dickson of Pittsburg paid our borough a business call Thursday. T. J. Cole of Mt. Braddock was a visitor in our town yesterday.

John B. Stroud and his force of men have been very busy the past spring here fixing many of the homes of our citizens that were erected near the furnace and part of them are at work painting the interior of the United Brethren Church at Laurel Hill.

The people of town have done more improving along the line of painting this year than has been done in many years.

A. H. Whiteford who has been here since the Samuel-Solway Company began the erection of their second block of ovens has been transferred to the company's plant at Chicago. Mr. Whiteford had completed his work here and as the company found in him a profitable employee they have placed him where he will be of great service to them.

During Mr. Whiteford's stay here he has succeeded in capturing one of our fair damsels. Mr. and Mrs. Whiteford have many friends here who regret very much to see them leave.

The past week has been one of a marked exodus of the fore men population and if it should continue at the present rate for a few weeks the foreign population would be much less than it is now. There were 25 left yesterday for New York and they are been leaving in droves for Morantown and Fairmont W. Va. and other places in search of employment.

Mrs. Josephine and Mr. Walter S. oner of Scottdale were the guests of Miss Mary Harper yesterday.

Mrs. E. Houston of near Pittsburg is the guest of Mr. and Mrs. Harry Yoe.

Mrs. Matt's son left yesterday for his home in Forest Grove Pa. after a pleasant visit of more than a week with Mr. and Mrs. J. T. McCallister of this place.

On last Wednesday evening a special meeting of the Royal Arcanum Council No. 171 was called to transact some important business.

Mrs. Lull Cunningham who has been visiting her mother Mr. John McCallister for some time has returned to her home in Hill Garden W. Va.

Rev. C. W. Hoover and wife went down to Leno on Thursday to visit friends.

S. A. Day is having his home painted which will add much to the appearance of the town. Mr. Day is also doing the work.

Mrs. Jacob Skiba of Johnson is at the home of her father John Malone and is in very poor health. She has been confined to the house ever since coming here. Mrs. Skiba has not enjoyed her visit at all.

William Lyon of Pittsburg was a recent visitor in our town.

P. W. Bone and Frank S. Gans of Uniontown were circulating among friends here yesterday.

Rev. C. L. B. Cartwright pastor of the Methodist Episcopal Church of Scottdale will lecture here in the Methodist Episcopal Church on July 29. Rev. Cartwright has given considerable fame as a lecturer and all who go to hear him will spend a profitable hour. His subject will be "The School of Life."

William White who is employed at the Pope Cement & Brick Stone quarries to operate the stone crushers has been off duty this week suffering with a sprained back, a result of a fall while at work the first of the week.

Mr. Paul Patton of Trotter is spending a few days here the guest of Patrick Finnegan. Mr. Patton will leave in a few days for a visit of several months to his native country of Ireland.

Rev. Perry, a colored gentleman who has been conducting a camping near Fairchance was recent caller in Dunbar. Rev. Perry has delivered several sermons on the public square here during the summer.

NO CHANGES WERE MADE.

Present Pudding Sale of Amalgamated Association Was Adopted. No changes were made in the pudding sale at the meeting of the representatives of the Amalgamated Association of Iron Steel and T. A. workers and the officials of the Carnegie Steel company which was held in the Free Building. A meeting of this kind is held every two months to exchange the sales proceeds for the past 60 days and to fix the bids for the wages of the workmen for the coming 60 days. It was the opinion of many that the pudding rate would be reduced from \$5.25 to \$5.00 on account of the existing business conditions. The meeting lasted but a few minutes and the present sale was retained.

Excursions to the West. Beginning June 1 the Missouri Pacific railway will sell excursion tickets to certain points in Colorado and Utah at one fare plus 50 cents for the round trip. On the first and third Tuesdays of each month homeseekers tickets will be on sale from St. Louis to the West and Southwest at rate of one fare plus \$2.00 for the round trip. For further information address John R. James Central Passenger Agent 315 Bessemer building Pittsburg Pa.

LAST CALL

REFRIGERATORS.

Following our usual custom, we do not intend carrying any over, so have cut the price on them without any regard to cost. Not many left. Some have enameled linings. Some one door and others two doors. Those that ice goes in top. Some that ice door opens in front. None have escaped the cut in price, as small list below shows:

Refrigerators that sold at \$7 00	now \$4 25
Refrigerators that sold at \$9 00	now \$5 50
Refrigerators that sold at \$12 00	now \$7 00
Refrigerators that sold at \$15 00	now \$8 50
Refrigerators that sold at \$18 00	now \$10 00
Refrigerators that sold at \$25 00	now \$13 50

Almost every size to choose from, and each and every one is made of hard wood. Mineral wood lining, removable ice chamber and shelves. Goods that are all this season's make, and every one a bargain. Let us show them to you.

A Misapprehension —AND— A Correction.

From several inquiries we learn that some people have misread our announcements, and have understood that because we advertise a Clearance Sale of Men's Ready-to-Wear Suits in connection with our intention of adding a Merchant Tailoring, Mens Furnishing and Hat Department, we were going to discontinue the sale of Made up Clothing.

Such is not the case. Our advertisement distinctly stated that the Clearance Sale was for the purpose of cleaning up our stock of broken sizes, last of lots, etc., etc.

We are highly gratified with the results of our special sale. A much larger number of people than we expected have availed themselves of our liberal price reductions.

There Remains a Few Extremely Desirable Suits at \$5, \$7.50, \$10 and \$12.50 Which Will be on Sale Until Saturday, July 16th.

We will continue our Ready-to-Wear Clothing Department along with Tailoring, Hats and Haberdashery—following the same policy we have pursued during the past three years—of selling High Grade Suits at reasonable prices, only that it is our purpose to make the department larger and better than ever.

New Lines of Shirts, Neckwear, Collars and Cuffs, Hosiery, Handkerchiefs, Underwear, etc., etc., are ready for your inspection.

WHY THE JAPS WIN.

The Jap is a little man from a little
island. The Russian is a big man
from a big country. Both are hardy.
Why has the little Jap been universally
victorious over the giant?
Because the Japs are nimble of wit
and nimble of foot; because they see
far and shoot straight; and, last but
by no means least, because they do
not know fear.

The Russians boast in their dis-
patches that they slew 30,000 Japa-
nese soldiers before the Port Arthur
defenses by mine explosions, but that
fact has not in the least daunted the
courage of the Mikado's men. They
are as eager for the fray to-day as
they were yesterday and will be to-
morrow. Death to them is not so ter-
rible a thing as it is to people of the
Christian nations. They believe that
their future state will be a state of
paradise when they die fighting for
their country, and largely for this
reason they enter battle absolutely
without fear.

Such fighters are dangerous, and the
Russians have been brought to a but-
ter realization of the fact in their
long series of disastrous defeats and the
almost certain knowledge that the lit-
tle men of the little island are de-
termined to beat them back from Chinese
territory; to accomplish what all the
Powers feared to attempt. We almost
find ourselves wondering whether
Japan is not destined to become a
great nation. Quien sabe?
The Greeks were a mere band of
but they knew not fear and they had
an Alexander.

THE POSTOFFICE MUST STAY.

The News, Champion of Reform,
Herald of Progress, Perfunctory
Organ of Democracy of the 16-4-1, or
any other old variety that is "reg-
ular," wants the postoffice moved up
street, so it will be more convenient
for Editor McGinnis to get his mail.
He expects to be in close correspond-
ence with Colonel William Jennings
Bryan during the campaign and in
the impending conflict he wants to
save his legs as much as possible in
view of the severe strain upon his
brain.

It seems to us, however, that from
a purely physical standpoint Editor
McGinnis had better devote a certain
amount of his time each day to bodily

exercise. It is said that walking is
one of the best forms of exercise that
man ever invented or stranded actors
ever practiced. Out of the great
love we bear our editorial brother
we are constrained to protest against
the removal of the postoffice from its
present location. Though he may not
realize it now, yet it is the best
possible location for Editor McGinnis
under the circumstances.
And it suits us first-rate.

BRYAN'S SECOND "KNOCK."

Colonel Billygoat Bryan is still hat-
ting away at Parker and the Demo-
cratic Platform. He has issued an-
other statements on the same lines as
the previous one, and it begins to look
as if he is beginning his own cam-
paign for 1908 before the present cam-
paign is finished. So impatient is he
to get back into his old position as
party dictator that he is already wield-
ing the "thunderer's hammer" in the
work of demolishing the St. Louis plat-
form and destroying the chances of the
candidates who stand upon it might
have for election.

It must be fully understood that
Bryan does not intend that Parker
shall be elected if he can prevent it.
He will vote for Parker, because it
is part of his program to be "regular,"
but he never misses an opportunity
to criticize the platform and abuse
the candidates. Like the minister who
was strong in the faith but weak in
the flesh, he advises his follow-
ers to do, not as he does, but as he
says.

Architect Bryan finds little in the
platform to commend, and he is tor-
mented with doubt lest such as he
does find will not be carried out in
good faith by the candidates.

The platform is a mere shell, so
narrow that it is with difficulty Acro-
bat Bryan balances himself upon it,
and so weak withal, by reason of the
absence of that familiar Bryanesque
foundation known to politics as 16-
4-1, that in his imagination it sways
under the weight of his intense con-
victions and tosses amid the angry
billows of a tricked and indignant
party like a foundering ship stagger-
ing in an ocean gale.

But Pilot Bryan is a good sailor,
and he keeps his eye on the Port of
1908, where he expects to land the
Democratic ship after he has marooned
the Gold Bugs on the Island of
Defeat.

It is a rather startling announcement
we print today, and it is official, too,
namely, that the B. & O. will spend
\$13,000 for new stations in Uniontown
and \$26,000 for the same purpose in
Morgantown. Uniontown has twice
as many people as Morgantown, and
no doubt twice as much business. It
is difficult to understand why Morgantown
needs a three times bigger and
better passenger station and freight de-
pot than Uniontown, unless it be that
Uniontown doesn't patronize the B. &
O. as much as she should, while Morgantown
does all her business over the
B. & O., having no other line of rail-
road.

The Copper King of Montana as-
serts that he has not forgotten old
"Platt."

The Chicago strike is already mark-
ed by rioting. Most Chicago strikes
wind up in this manner. The Windy
City is the hotbed of Anarchy. Yet
Colonel Bryan does not believe in gov-
ernment by injunction nor the calling
out of troops to suppress disorder
and preserve the peace.

The merchant and business world of
Connellville should turn out this af-
ternoon and greet the Pittsburgh whole-
salers with a wholesale welcome.

'Foxy Grandpa' Davis says the St.
Louis platform is his platform, and
that he will support it. He will prob-
ably support the structure in general,
while Parker will support the hole
where the money plank was to have
been. The hole will be about the
only thing left of the platform after
the public has executed its war dance
upon it in November.

Colonel Bryan is shaking hands
with the Democratic candidates and
bidding them vigorously below the
belt.

The Lion of the Transvaal, driven
from his native jungle, pined away and
died. Gen. Paul will be remembered
for his courage and tenacity. He led
a young republic against the might
power of England, and when En-
gland engaged in the war it was a hard-
fought victory. A few more like
it would have made her a weak and
timid power.

GUARD INSPECTION.

Arrangements for Placing
the State Guard Upon
the Carpet.

RATING OFFICERS ARE NAMED.

Commands Will Be Upon Parade from
July 23 to the 30th—Will Be a Stron-
gous Life at Gettysburg This Year.
To Wear Canvas Uniform.

General orders have been issued from Harrisburg for the annual in-
spection of the National Guard of
Pennsylvania during the encampment
which opens at Gettysburg on July 22.
The orders, which are self-explanatory
follow:

In compliance with general orders
No. 19, headquarters National Guard
of Pennsylvania, A. G. O., c. s., the
division National Guard of Pennsylv-
ania will be inspected under the
supervision of the inspector general
as the annual encampment to be held
at Gettysburg, July 22 to 30, 1904.

"The new service uniform, with pit-
chees, may be worn by officers.

"The infantry of the Third Brigade
will be paraded for inspection by reg-
iments on the division parade ground,
in such order as shall be designated
by the brigade commander, the first
regiment reporting at 7 o'clock A. M.
on July 25, 1904, and that of the sec-
ond brigade on July 28, 1904.

"The inspection of arms, accoutre-
ments and personal appearance will
be made by the inspector general in
person; the inspection being preceded
by a review.

"The inspection drills for infantry
will include ceremonies, evolutions of
the regiment, extended order, outpost
duty and advance and rear guard.

"The following assignment of offi-
cers is announced, to wit: Colonel
Ezra H. Rippe, assistant adjutant gen-
eral staff commander-in-chief ceremon-
ies.

"Major Charles H. Worman, inspec-
tor First Brigade, regimental drill.

"Major Samuel W. Jeffers, inspec-
tor Second Brigade, extended order.

"Major William P. Clark, inspector
Third Brigade, outpost duty, advance
and rear guard.

"The inspection of all guards and
sentinels, including guard mounting,
will cover the entire tour of the duty—
assignment, Lieutenant Colonel John
P. Penney, division inspector.

"The inspection of the artillery will
be under the immediate direction of
Colonel Stephen Porter, chief of ordi-
nance, who will arrange details for said
inspection with battery commanders.

"The cavalry will be inspected by
the inspector general in person, and
the inspection will include troop drill,
extended order, outpost duty, advance
and rear guard. Troop commanders
will be advised later when to report
their commands.

"The inspection of books and papers
will be under the supervision of Col-
onel Edward Morrell, judge advocate
general.

"All inspectors will make ratings out
of discipline. The condition of
camps and the interior of tents, the
conduct of men off duty, and the order
in camps, after taps, will be important
factors in the rating for discipline.

"Each inspector will make note of
errors in drills and advise the com-
manding officer of each organization
thereof before leaving the field, and
will make note of same to the inspector
general in writing, as soon as possi-
ble after the inspection of each com-
pany.

"All averages for infantry will be
by regiment.

"Frank G. Sweeney,
Inspector General.

"The officers named in the circular
of the inspector general are hereby de-
tailed for duty in the inspector gen-
eral's department during the encamp-
ment and will report to the inspector
general for duty upon their arrival in
camp. They will be quartered with
their respective commands.

"By order of
"Samuel W. Penney,
Governor and Commander-in-Chief.
"Thomas J. Stewart,
Adjutant General."

NEW COAL COMPANY.

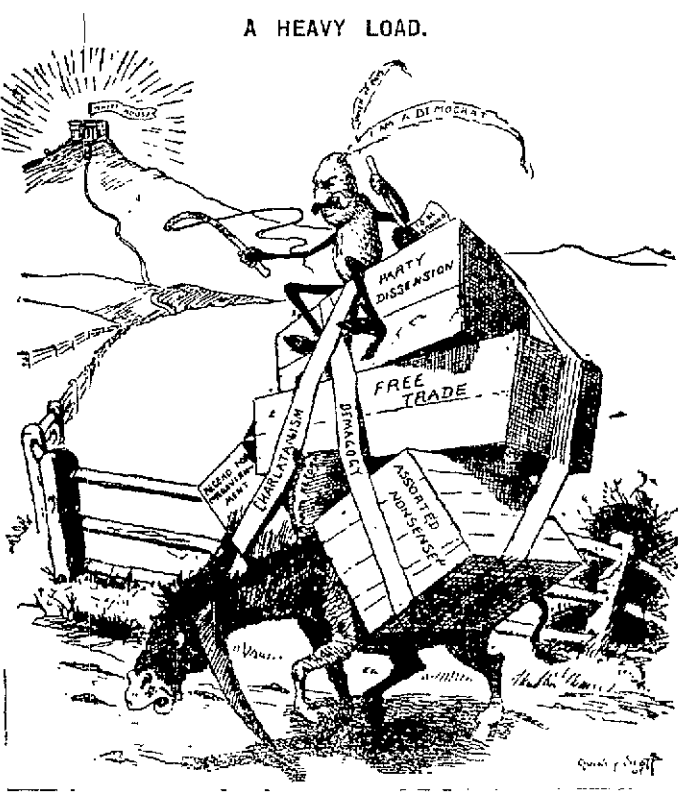

W. P. Hurst of Scottsdale Leases Can-
dace Coal Co.'s Plant.

W. P. Hurst of Scottsdale, closed
the deal last week for a lease on the
coal plant of the Candace Coal Co. at
Clements, West Virginia, and will or-
ganize a company for operating the
plant on a royalty. The operating will
be conducted under the name of the
Clements Coal & Coke Company, and
operations at the mines will be start-
ed next week. Mr. Hurst will have
full charge of the operations and will
employ 125 to 150 men with an output
of 750 tons per day. With the plans
in view the new concern expects to
secure all the cars necessary in the
transportation department and oper-
ate the plant full time.

The Candace coal plant is located
in the Tygart valley, West Virginia,
and is surrounded with a 1,500 acre
coal field. The plant is fully devel-
oped and ready for operation. Wil-
liam Kooser, mine foreman at the
Empire coke plant, near Buffalo, de-
livered has charge of the mine.

Live Four Years Longer Now.
The last census shows that the av-
erage death is now 35 years; in 1890
it was but 31 years. So we now live
on an average of four years longer
than in 1890. This is due to the very
satisfactory decrease in the death
rate, being now 10 per cent. less than
in 1890. In 1890 the death rate in
271 registration cities was 21 per 1,000
population. In 1900 the rate was only
18 per cent.

Ringold Regiment Reunion.
H. Boyd Dodge, who was a Lieuten-
ant and commissary in the Twenty-
second Pennsylvania regiment, "Ring-
olds," has sent a pressing invitation
to all members of the old regiment to
attend a reunion at his home in Des
Moines, Iowa, September 15 and 16.

YINKOW IS OCCUPIED.

Seaport of Newchwang, an Important Point, in Possession of the Japs.

RUSSIANS NARROWLY ESCAPE

Irregular Skirmishing Between Outposts Where Armies Come in Contact—Russians Continue to Advance Town After Town

London, July 15.—The Daily Chronicle's Tokyo correspondent says that on July 11 the Japanese occupied Yinkow and that the 300 Russians who were in the town escaped with difficulty.

Shanghai, July 15.—Yinkow and Newchwang are in the hands of the Japanese and were taken with little or no resistance. The full force of the army under General Oku is now directed against Tatsienkiao where the Russians are strongly entrenched, and are making a hard fight.

There are it is said no less than 60,000 Japanese in the column which is attacking Tatsienkiao and there are nearly as many more within supporting range. It is not known how many Russians are left for the defense of the place, but it is believed that the Japanese are in a position to take the place at any time.

St. Petersburg, July 15.—A telegram from Lieutenant General Saharoff regarding the mutual notes the continued Japanese advance on Tatsienkiao and continuous fighting along the seven roads converging on Tatsienkiao. The Russian command apparently were not offering serious resistance on either of the Suifu roads or along the line of General Oku's advance. There may be a slight counter-attack at Tatsienkiao, where General Kuropatkin probably has stationed his left wing rear guard. The Japanese are utilizing Kaichow to land supplies and landing supplies at Kaichow.

Russians Report Brilliant Retreat. General Saharoff also reports the appearance of General Kuroki's corps considerably north of Liaohang. This is an indication of a general flanking movement on Haicheng. The Japanese northern outposts are being driven back on Saimatsa probably due to pressure on the part of General Rennenkampf.

Tatsienkiao, July 15.—The Russian retreat from Kaichow with the loss of only 100 men and the infliction of heavy loss on the Japanese was a brilliant feat of which General Kuropatkin marked his appreciation by conferring decorations on every officer present.

Dawn July 9 revealed the Japanese in such force that it was necessary to withdraw. The retreat was carried out in the face of tremendous difficulties. Only the road swept by the Japanese batteries and barred by a clumsy, conspicuous gate could be used. Near this gate stood General Stakelberg directing the operations. The Russian batteries cleverly maneuvered, disturbed the Japanese gunners and as a result their projectiles fell short.

The bombardment lasted many hours. Shells were flying over the city of Kaichow but the Chinese were quite unconcerned and carried on their business as if nothing unusual was occurring. There was a critical moment when the bulky commissariat wagons had to pass the exposed narrow gateway. The Japanese tried to take advantage of the situation and repeatedly attacked the Russians but they were beaten off.

Count Nirod Killed by Artillery. The Japanese began to press their rear guard when a majority of the Russian troops had gone north and Colonel Kravetz, with a battery came to the rescue. He posted guns near the gateway and fired 500 rounds with terrific effect on the advancing masses. The Japanese gunners at first fired wildly but finally found the range. The first well aimed shell killed Count Nirod who was standing beside Colonel Kravetz. The Russian guns were then removed. The companies still remaining at Kaichow tried to fight their way with bayonets.

The Chinese at Kaichow gave the Japanese an enthusiastic reception, decorating the streets and houses in honor of the victors. They expected to hear Kaichow in a few days. The following was received from Port Arthur. There is no change in the position of affairs. Fresh provisions arrive daily. There are constant skirmishes in which the enemy suffer the most losses. We have no wounded or seriously ill. On the surrounding hills the Chinese are constantly photographing.

The Japanese have issued orders that instead of attempting to make prisoners of the Russians they are to be shot.

The foregoing is probably the undated dispatch sent from Port Arthur to Tatsienkiao and from there to St. Petersburg referred to in the Associated Press dispatch from the latter place reviewing the situation. It will be noted that there is no direct communication between Tatsienkiao and Port Arthur and there is no explanation as to how the message was sent.

Wages of 25,000 Workers Cut. Fall River, Mass. July 15.—A committee representing the Fall River Manufacturers' association issued notice that the wages of the cotton mill operatives in this city will be reduced 12 1/2 per cent on July 25. The cut affects 20 mills employing about 25,000 hands.

Mrs. Samuel L. Clemens Buried. Elmira, N. Y. July 15.—The funeral of Mrs. Samuel L. Clemens, wife of Mark Twain, was held here at the home of her brother General Charles Langdon.

Cuban Custom House Robbed. Santiago, Cuba, July 15.—When Cashier Tejeda went to his office he found the custom house safe open and \$6,300 missing.

MANY SOCIAL AFFAIRS

Pioneer Lawn Parties and Pleasant House Gatherings Are Held

Miss Emily Ruth is entertaining this afternoon at a 1 o'clock tea at her pretty home place, Lynwood, South Side. It is a beautifully appointed affair, all the decorations being carried out in pink and white. Covers were laid for 20 guests. The table decorations were large baskets of pink and white sweet peas, pink carnations and pink shaded lights. The decorative colors pink and white were also carried out in the refreshments. Large bunches of sweet peas were also used in profusion throughout the apartments. After tea the remainder of the afternoon will be spent on the lawns, which have been gaily arranged for the entertainment of the guests. A number of baby Catherine Rosetta's friends have been invited to spend the afternoon. The cut-out guests present were Miss Emily Ruth, Miss Helen Jewell of Newark, Ohio, Miss Sarah Hornell of Brownsville and Miss Evelyn Foley of Point Marion.
